Hi Ray,

We will keep an eye on the BMP. We have spoken to staff about keeping the grate area clear of debris.

- a. Looking forward to the draft kiosk designs, as we must bring our Growth Management Dept. (GMD) into the mix.
- b. No one has touch base with we about the missing sign replacement and that will be the first thing that GMD will ask about when they review the kiosk design.
- c. Are funds still available for the duckbill flapper gate for the end of the outfall?

Thanks and Enjoy,  
Dale

Dale,

just fyi, ...

it's my understanding the Hyannis Inner Harbor N BMP is now set to discharge the design storm from the MS4 to the BMP.

you might want to keep an eye on it if you have the chance; perhaps take some photos during storm events.

it's unlikely we'll have a ~ 1" storm in ~ 1 hr as we did last summer, but these days, anything's possible. that subcatchment is very 'flashy'. so recommend keeping an eye on the overflow structure to make sure the metal grate is not blocked/covered with grass or whatnot.

re: signs/kiosks.

a. we have some draft designs for the kiosk which i will soon forward to you for your review and comment.

b. has anyone touched base with you about replacing your sign?
